

Advanced Metering Solutions

Increase revenue through improved meter accuracy with a smart meter solution from Ameresco.

We evaluate, design, and develop turn-key meter solutions, that allow our customers to efficiently and proactively serve their end users.

Advanced Metering Infrastructure (AMI) and Automated Meter Reading (AMR) systems use advanced technology to read, monitor, and maintain water, electric, and gas utility distribution systems. A network of smart meters automatically communicate data between utilities and consumers, in a centralized database for billing and analysis.

Partner with Ameresco for a customized AMI/AMR solution that allows you to make fact based and informed asset management decisions, helping you proactively protect your utility infrastructure.

The Ameresco Solution

From design to project implementation, we have expertise in smart metering solutions (AMI/AMR). Starting with an evaluation of your current utility system and database, our engineering experts review your existing infrastructure and conduct an unbiased cost/benefit analysis. Then, after helping you choose the right meter and reading technology, we design and install a customized smart metering solution. We offer a holistic approach with a guarantee to the following services:

- Unbiased technology and product selection (AMI/AMR/meters)
- Design and implementation of advanced metering systems
- Turn-key, firm fixed price with various funding options
- Asset management analysis for future CIP planning
- Customized citizen engagement and communication strategies
- Database evaluation for accuracy and unaccounted for revenues

Benefits

Smart metering infrastructure enables accurate reading, collection, and management of utility data to provide enhanced customer service, transparency, and accountability. Work with the experts at Ameresco to implement a project with the following benefits:

- Captured lost and unaccounted for revenue
- Improved citizen engagement and proactive communications
- Reduced meter reading costs and errors
- Enhanced customer response time
- Leak detection and conservation
- Accurate and transparent detailed consumption data

AMERESCO

by the Numbers

Delivered over **\$6 Billion** in Energy Solutions

70+ Offices Throughout the USA, Canada, and the UK and more than **1,000 Employees**

Developed over **300 MW** of Renewable Energy Projects

Up to **45% Energy Cost Savings** with Comprehensive, Audit-Based Improvements

Socially **Responsible** & Economically **Efficient**

In 2019, Ameresco's Renewable Energy Assets and Customer Projects Delivered a Carbon Offset Equivalent to **11,167,978** Metric Tons of CO₂

Bringing Long-Term Value to Customers Since 2000

Founded in 2000, Ameresco, Inc. (NYSE:AMRC) is a leading independent provider of comprehensive services, energy efficiency, infrastructure upgrades, asset sustainability, and renewable energy solutions for businesses and organizations throughout North America and Europe. Ameresco's sustainability services include upgrades to a facility's energy infrastructure and the development, construction, and operation of renewable energy plants.

Ameresco's Advanced Technology Portfolio Includes:

Energy Efficiency | Distributed Energy Generation, Storage & Microgrids | Infrastructure | Energy Analytics & Supply Management | Operations & Maintenance

Ameresco has successfully completed energy saving, environmentally responsible projects with Federal, state and local governments, healthcare and educational institutions, housing authorities, and commercial and industrial customers. With its corporate headquarters in Framingham, MA, Ameresco has more than 1,000 employees providing local expertise in the United States, Canada, and the United Kingdom.

Ameresco's team of energy experts can assist you in identifying the solution that fits your needs.
