9 months

Summary

Dixons Retail Group is one of Europe's leading specialist electrical retailing group, trading through 1,200 stores and online, spanning 28 countries and employing more than 36,000 people. Dixons has understood the importance of energy efficiency and has developed an on-going programme to reduce energy consumption across its stores. We have delivered energy savings across 220+ stores through innovative lighting, HVAC and automation projects, achieving an average payback of 9 months and with the total cumulative energy savings covering twice the initial capital cost of investment.

Solution

Working closely with Dixons, we have delivered energy savings across 220+ stores through innovative lighting, HVAC and automation projects, achieving an average payback of 9 months and with the total cumulative energy savings covering twice the initial capital cost of investment. Ameresco provided;

- Project and programme management
- Survey, identification, design, procurement and implementation
- Savings evaluation and monitoring
- Health and Safety, procurement, and consultancy

Benefits

Along with the enhanced energy benefits resulting from the installations, Ameresco further offered the following services for Dixon Retail Group:

- Innovated to maintain high level of savings in an evolving programme
- Focused on capital and automation projects rather than behavioural change
- Monitored post-implementation performance of more than 220 stores
- Fully managed service with guaranteed performance

Ameresco's team of energy experts can assist you in identifying the solution that fits your needs.
