

Carbon Reduction Plan

Supplier name: Ameresco Limited

Publication date: 19 June 2025

Baseline Emissions Footprint

Commitment to Achieving Net Zero

Ameresco Limited is committed to achieving Net Zero emissions for Scope 1 and 2 by 2030, and for Scope 3 - Categories 1,4, 5, 6 and 7 by 2050.

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2019

Additional Details relating to the Baseline Emissions calculations: No prior Scope 3 emissions reporting, this plan consists of the first assessed and reported emissions by Ameresco Limited.

EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	3.48
Scope 2	19.04
Scope 3 (Included Sources)	175.88 (1. Purchased Goods and Services, 4. Upstream Transportation, 5. Waste, 6. Business Travel, 7. Employee Commuting)
Total Emissions	198.40 tCO ₂ e

Current Emissions Reporting

Current Year: 2024

EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	22.51
Scope 2	7.4
Scope 3 (Included Sources)	536.60 (1. Purchased Goods and Services, 4. Upstream Transportation, 5. Waste, 6. Business Travel, 7. Employee Commuting)
Total Emissions	566.51 tCO ₂ e

Emissions Reduction Targets

To continue our progress to achieving Net Zero, we have adopted a Net Zero Carbon for Scope 1 and 2 emissions by 2030 target.

In 2024, we have seen an overall decrease in Scope 1 and 2 carbon emissions compared to the previous year. For scope 3, there has been an increase in overall emissions, due to higher emissions from upstream transportation and business travel, as a result of business growth.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2019 baseline.

- 100% renewable electricity supply deal at our Guildford office
- Installed energy efficient LED lighting and controls at our Guildford office
- Implemented a comprehensive environmental management system and obtain ISO14001 certification
- Implemented a flexible working policy to reduce employee commuting emissions
- Introduced salary sacrifice scheme to encourage employee switch to EV

The carbon emission reduction achieved by these schemes and measures will continue to be in effect. In the future we hope to implement further measures such as:

- Encourage and enable low carbon transport options for business travel and commuting including public transport and offsetting
- Switch to 100% renewable energy supplies at all our UK offices

Declaration and Sign Off

Signed on behalf of the Supplier:

Mark Apsey MBE, Senior Vice
President, Ameresco Limited

Date: 19-Jun-25

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate [Government emission conversion factors for greenhouse gas company reporting](#)².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
