

Carbon Reduction Declaration

Supplier name: Ameresco Canada Inc.

Publication date: August 2026

Commitment to Achieving Net Zero

Ameresco Canada is committed to achieving Net Zero emissions for Scope 1 and 2 by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and serve as the reference point against which emissions reduction can be measured. Ameresco is progressively improving the management and reporting of carbon emissions in alignment with global reporting standards.

Baseline Year: 2025

Since emissions reporting began, the majority of Ameresco's operational greenhouse gas emissions are associated with U.S.-based energy assets. As a result, Canadian operational emissions represent a relatively small portion of the overall footprint.

EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	55
Scope 2	26
Scope 3 (Included Sources)	Additional Scope 3 emissions may be provided at a later date.
Total Emissions	81 tCO ₂ e

Declaration and Sign Off

Signed on behalf of the Supplier:

Bob McCullough, President
Ameresco Canada

Date: August 6th, 2026

Ameresco Canada's Carbon Reduction plan will be developed in accordance with Canada's Net-Zero Challenge (NZC) and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

This Ameresco Canada Carbon Reduction Declaration has been reviewed and signed off by Ameresco Canada's executive leadership.
